For distribution to Regions, State, Local and Tribal Air Agencies, communities, industry, environmental groups, and the general public:

Webinar: Final Revisions to the Exceptional Events Rule and Announcement of Availability of Final Exceptional Events Implementation Guidance for Wildfire Events

Date: Wednesday, September 21, 2016

Time: 2:00 – 3:30 PM Eastern Time

Intended Audience: Regions, State, Local, and Tribal Air Agencies, communities, industry, environmental groups, and the general public

Link to Join Webinar: <https://epawebconferencing.acms.com/e-events>

Description: On September 16, 2016, the EPA finalized revisions to the 2007 Exceptional Events Rule to address issues raised by stakeholders since finalizing the 2007 rule and to increase the administrative efficiency of the Exceptional Events Rule process. This action also provides notice to States with areas subject to newly issued mitigation requirements and announces the availability of the final version of the non-binding guidance document, *Guidance on the Preparation of Exceptional Events Demonstrations for Wildfire Events that May Influence Ozone Concentrations*, which explains how to apply the rule revisions to wildfire events that could influence monitored ozone concentrations. The EPA will host an informational webinar to summarize the key elements of the final rule revisions and the final exceptional events implementation guidance for wildfire/ozone events. For more information or to download a copy of this final rule and guidance, go to the EPA's Exceptional Events website at <https://www.epa.gov/air-quality-analysis/treatment-data-influenced-exceptional-events>.

Logistics: You will listen to the audio via your computer. We highly recommend running a connect test on your system before logging into the webinar to ensure that the proper add-ins are enabled and the audio is working properly: http://admin.adobeconnect.com/common/help/en/support/meeting_test.htm.
